MOBILE RECORDING GUIDE

The following items from THE Studio are available for checkout for mobile recording:

1. Mobile lapel microphone kit
   a. XLR to ¼" cable
2. iPad Pro
3. Apple Pen
4. Scarlett 2i2 Audio Interface
5. Phone/Tablet Tripod
6. GoPro Camera (available at front desk)

Depending on the type of project you are trying to accomplish you will have different set-ups for the equipment. This guide will help you get started with the equipment but isn’t meant to be a comprehensive how-to. If you have additional questions or want to set-up a consultation to help you figure out how best to approach your project inquire at the front desk of the library.

EQUIPMENT SET-UP

LAPEL MICROPHONE & SCARLETT 2I2 SET-UP

1. Plug the Scarlett 2i2 device into the computer you wish to record with. Follow the instructions on the inside of the box to get started with using the Scarlett on your PC or Mac.
2. Turn on both the transmitter and receiver units for the microphones. If the batteries are low ask the front desk of the library for assistance.
3. Plug the lapel microphone into the transmitter (labeled on back) and plug the ¼" to XLR cable into the receiver unit (also labeled on back.) Plug the XLR end of the cable into the first channel on the Scarlett.
4. Set the gain knob around channel one to around the 12-3 o’clock positions. Make sure “Line” is selected underneath. If the gain knob is flashing red, turn it counter clockwise until it flashes green when speaking into the microphone.
