- Government reports, bills, ordinances, meeting minutes

Collections
581 collections

Partners
122 academic libraries, public libraries, museums, historical societies, cities, counties, and state agencies from Utah, Nevada, Arizona, Idaho, and Hawaii
(coming soon: new partners in Montana!)

Policies and Guidelines
See helpful materials on our “About” page at http://mwdl.org/about.php.

Infrastructure
The central search portal in Ex Libris Primo accesses a metadata index that is updated weekly with harvests from the distributed network of digital repositories. These repositories use different digital assets management systems, including CONTENTdm, BE Press, ArchivalWare, Equella, AXAEM, and several in-house systems. The Open Archives Initiative protocols, along with adoption of the common MWDL Dublin Core Application Profile, assure interoperability.

Governance
MWDL is a program of the Utah Academic Library Consortium. Policies are developed by the UALC Digitization Committee and reviewed by UALC Council of Directors. Membership in the MWDL is open to all libraries, archives, museums, and other memory institutions.

Joining the Network
Check out our Partnership Agreement at http://mwdl.org/about.php and contact us. Services to partners are underwritten by the UALC and the Digital Public Library of America, as part of the DPLA’s Digital Hubs Pilot Project 2012-2014. Affordable fees for digitization and hosting are available to partners through the service hubs. See the MWDL Digitization Price List.
